School Bus Tracking and Attendance Checking Progress report I Executive Summary

Summary

In this progress, we have developed three main features which are Registration system, QR generator and reader, and Attendance checking system. We approximate an overall project status around 30%. Mostly, the project overall status is not on the schedule because we spend lots of time to gathering the real requirement on real study venues. Spent time about 2-3 weeks.

Project Overall Status:

Milestone Deliverables	Due Date	% Complete	Deliverable Status
Project Plan	28/8/2015	80%	On schedule
Software Requirement Specification	28/8/2015	60%	On schedule
Software Design Document	28/8/2015	40%	Not on schedule
Test Plan	28/8/2015	20%	Not on schedule
Test Record	28/8/2015	0%	Not on schedule
Traceability Record	28/8/2015	40%	Not on schedule

Comment

For project plan, software requirement specification, Test plan, Test record, Traceability Record and source code of this progress can be updated, if it has an updated and changed.

Plan to do

We will follow the project schedule on Progress II and re manage the task.
